

ENVIRONMENTAL POLICY

Diggerman Earthmoving specialises in dry and wet hire to both civil and private enterprises including trucks, excavators, dozers, loaders, skid steers, water trucks, rollers, traffic control and bump trucks.

Diggerman Line Marking specialises in line removal, audible and tactile installations raised reflective paint markers and traffic control.

Diggerman Training is a registered training organisation that specialises in the tickets and certifications needed to safely operate machinery with high levels of skill. It also provides other associated training courses and certifications required by the construction industry, including civil construction certifications, safety, OH&S, first-aid, dogging, confined spaces and working at heights.

We are committed to a policy of providing high quality products and services in a manner which will protect the environment, this will include:

- Sustainable resource use;
- Climate change mitigation and adaptation; and
- Protection of biodiversity and ecosystems.

We will work closely with our clients, contractors, the community, industry and external agencies to establish the controls by which we can make a positive contribution towards innovative and cost-effective and sustainable environmental outcomes.

Responsible management of environmental issues is an essential part of achieving our business objectives. Accordingly, we are committed to conducting our activities in ways which will:

- Improve our awareness and management of environmental risks;
- Prevent pollution;
- Fulfil compliance obligations.
- Promote waste minimisation.
- Continually improve the system to enhance environmental performance.

We, through our management and workers, will ensure our operations comply with this policy by developing, implementing and maintaining a system based on ISO 14001:2015.

The Environmental Management System will:

- Set a clear policy direction for environmental issues and objectives.
- Contain measurable objectives and targets;
- Establish systems for auditing monitoring and reporting performance.
- Identify and promptly resolve any non-conformances and document any necessary procedural changes.
